Director of Logistics

SUBJECT: Breakfast Bullets for the Week of 9 May 1988

Following are some OL activities which you may wish to include in your discussions with the DCI next week:

- ° New Headquarters Building: On 27 April, the Agency took possession of the freight elevator and the 4th floor of the South Tower, excluding the lobby, of the New Headquarters Building. This leaves only the ground and 1st floors and the remaining portion of the South Loading dock to be turned over to us. The target date for the turnover of these areas is the week of 9 May.

- ° Centel Bid Protest: On 27 April, representatives from OL met with the General Counsel to discuss the jurisdiction of the General Accounting Office (GAO) with regard to the Centel Business Systems bid protest of the Agency's award for standard workstations. The General Counsel indicated the Agency should submit its response to GAO, which is due on 10 May. A review of documents to be furnished to GAO and Centel has been completed. As a result of this review, it was determined that certain documents will be released to GAO only and that a separate package will be furnished to all other parties concerned.
